=====  
CALL FOR POSTERS and DEMOS  
=====

<http://icac2015.imag.fr/>

Posters and Demos are invited for ICAC 2015 on specific aspects of autonomic software and systems, particularly relating to the subject areas indicated by the conference call for papers.

Posters provide a forum for authors to present their work in an informal and interactive setting. They allow authors and interested participants to connect to each other and to engage in discussions about the work presented. A poster submission should motivate its relevance to the autonomic computing community, summarize the challenges, experiences, or the cutting-edge ideas.

Demonstrations present an existing tool or research prototype. Authors are expected to perform a live demonstration on their own laptop during the poster and demonstration session. A demonstration submission must describe the novelty and the goals of the demonstration and key ideas involved in building the tool or prototype including possible users, use cases or specific results.

#### IMPORTANT DATES

=====

Poster/Demo Proposals Due: March 30, 2015  
Notification: Apr 20, 2015  
Camera ready: May 1, 2015

#### SUBMISSIONS

=====

All demo and poster submissions must represent original and unpublished work that is not currently under review. Submissions will be judged on originality, significance, interest, correctness, clarity, and relevance to the broader community.

Submissions are limited to 2 pages, IEEE format. Accepted papers will be included in the ICAC 2015 Proceedings, which will be published in IEEE Xplore.

At least one author of each accepted submission is expected to attend the conference.

Submission format: <http://icac2015.imag.fr/instructions-to-authors/>
